

Product Description

Introducing Mom & Pop™ Super Sour Gummies

Candy first. Sour as hell. Properly dosed.

These aren't mellow gummies pretending to be candy—they're **real super sour gummies** with a serious bite. We started with mouth-puckering, old-school sour flavors you'd expect from a corner candy shop, then dialed in each formula for a specific kind of ride.

Each bag delivers **100mg THC per flavor**, with select blends designed for energy, balance, or wind-down. Bright, bold, and unapologetically sour—because if you're going to eat a gummy, it should taste *that* good.

We don't make weed gummies.
We make good fucking candy.

Please create our brand/products on your menus and use the logo/product images attached to the kit.
